

9 MW - Bulgaria

May 25, 2010

9 MW - Bulgaria

May 25, 2010

Basic project figures

Wind turbines:

3 Vestas V90-3.0 MW 105 m hub height

Status of the project:

The project is Ready-To-Build

Building permissions were issued September 28, 2009, and Final Grid Connection Agreements were issued December 15, 2009

The erection of the turbines will be in Q3 2010

The start of operation of the project will take place at the end of Q4 2010

Feed-in tariff:

Feed-in tariffs (April 2010 - March 2011) are:

Production up to 2,250 full load hours annually: 190.59 BGN (97.45 EUR)/MWh

Production exceeding 2,250 full load hours annually: 174.44 BGN (89.19 EUR)/MWh

There is a 15 year obligatory power purchase warranty.

Minor annual tariff adjustments may occur within legislative boundaries. Possible adjustments will be effective from April 2011.

Energy production:

7.7 m/s - Mean wind speed at hub height

31 % Capacity factor Net P50

2,712 Full load hours Net P50
